

Onofrio Passariello

AI Automation Specialist with a Design background.

I come from the world of design, and I've been using AI to speed up my work for four years. I took the in-person AI Agent & Automation bootcamp in Barcelona to learn more and meet others on the same path. Now I'd like to make AI my job, in a team where we grow together.

Experience

Space Designer

[Simmetrico], Milan, Jan 2026 – Aug 2026
